

# J.C. RAMSDELL

ENVIRO SERVICES, INC.

J.C. Ramsdell Enviro Services, Inc., the industry leader in secondary containment for petroleum and liquid fertilizer, is now offering you, the cattle producer, primary containment with custom fabricated liners for your stock tanks. You can use your existing water tanks with our custom fabricated, high quality liner or buy our complete system package to keep that water readily available.

Easy installation:  
This 18' diameter tank sets up in about 2 hours with 2 people.

*One of the largest challenges of a producer is retaining one of earth's most valuable resources—water. Why not take a step in the right direction by preventing the loss of that valuable water by installing one of our custom fabricated stock tank liners.*

Need a custom design or shape? We can do that too.

J.C. Ramsdell is the only company that offers custom made steel edge guards and patent-pending liner clamps! Together they're simply a great way to protect your valuable investments.

You'll be completely satisfied with a custom steel stock tank from J.C. Ramsdell because we use the highest quality steel and warranted liner material while still maintaining the best price for your bottom line!

- Custom Fabricated Liners
- Bottomless Tanks
- Repair Kits for Liner Holes
- Complete System Kits
- Free Installation Manual

Unlike bentonite or concrete that cracks, leaks and needs constant attention, our steel systems are portable and worry free!

**Contact your local NRCS office as you may be eligible for a cost-share through their EQIP.**

This photo shows our Zero Ground Disturbance posts. These posts are optional but we recommend installing them on tanks 18' diameter and larger.

## Need a Reliable Steel Stock Tank?

J. C. Ramsdell's stock tanks have a high degree of galvanization, which virtually eliminates common rusting problems where the soil touches the steel.

No other company will offer this high quality a product or level of galvanization!

Add that and the heavy duty liner, offering up to a 15 year warranty on the liner material, and you have yourself one tough stock tank!

The satisfaction comes of knowing your herd will get the amount of water they need without leaks

#### Stock Tank Components:
